BOB Financial Solutions Limited is a wholly owned subsidiary of Bank of Baroda and a Non-Deposit Accepting Non–Banking Finance Company (NBFC). BFSL was established in the year 1994 to cater to the need of rapidly growing credit card industry in a focused manner. BFSL is one among the pioneers in Indian card market and was the first nonbanking company in India to issue credit cards.

The Company's core business is credit card issuance and consumer lending. It also provides support to Bank of Baroda by carrying out its merchant acquiring operations.

Position	Manager / Assistant Manager – Project Manager Technology
Role & Responsibilities	**Key highlights of the role are listed below (purely indicative and not limiting):** • Manage the software release schedule for multiple project teams for multiple competing projects in parallel. • Lead development teams using the Agile Scrum framework: run backlog grooming sessions, sprint planning, standups, monitor burn down charts, resolve impediments to achieving goals, and coordinate retrospectives. • Manage dependencies between multiple projects. • Manage deliverables from multiple interdependent component projects to schedule with competing priorities simultaneously. • Drive Design, development and implementation of requested changes to program components by working with Product, UX, UI, Verification, Validation, and Projects teams. • Drive Implementation in waterfall project deliver environment. • Software Delivery commitments to customers and flags issues appropriately. • Risk plan and mitigation. • Management of adhoc product and business requirements and develop the quality and timely release plan. • Creates and maintain appropriate JIRA/Excel dashboards and boards for flagging any SLA breaks. • Prepare and present project status to key stakeholders at regular intervals. • Demonstrate a thorough understanding of the legal compliance process, how to apply it and ensure it. • Act as a single program voice in a cross-geo, cross functional environment and manage upstream and downstream status communication. • Manage the delivery of IT Systems implementations, delivering on time, on budget and to a high standard. • Define and manage to a clearly documented process with lifecycle objective milestones, lifecycle architecture milestones, dependencies, risk analysis and risk mitigation plan. • Managing a change control process in relation to the project/programme, gain

	agreement for revisions to the scope from project sponsors, and ensure projects continue to meet business objectives. • Coordinate third parties such as System Integrators, Third Party Vendors and back-end API providers.
